

## Laser cutting

### Laser cutting

Our 6 kW CO<sub>2</sub> laser cutting machine can process sheets with the size of 2500 mm x 12,000 mm.

This powerful thermal cutting machine processes sheets from 1 – 20 mm thick.

Best cutting quality – high speed.

The laser guarantees accuracy and maximum precision in every cut. Strips and quarto plates can be processed.

### With our laser cutting machine, we cut:

- Rings
- Circular blanks
- Rectangles
- Your shaped part(s) according to drawing or DXF/DWG file
- Laser marking

Do you have any questions about our possibilities?  
We'll answer!
